Intigate has designed and engineered move4life.com from beginning to end. They created project timelines and always delivered when they promised. They are total professionals. We will definitely work with them again and am currently in the process of giving them referrals.

We are very satisfied and happy to have found Intigate as our offshore development partner. During our relationship, Intigate has developed a good understanding of our own vision and work flows and found a way to successfully complement our operations without causing any discontinuities or issues on our side.

Intigate has been a great partner for Indosolar. They understand our needs and always develop solutions that focus on return on investment. Intigate has delivered great value with our software projects. Intigate solutions are never "stereotypical" and are always well thought out to enhance our business processes

Intigate has done a marvelous job of designing a hassle free and easy to use fetching Phone Directory software. While interacting with Intigate, we found them highly motivated, disciplined and punctual.

**I TECH (KUWAIT)**

"From the very beginning of the project, Intigate provided the very highest levels of project management and technical expertise. Despite the complexity and large scope of this effort, Intigate delivered a first-class product that has gone well beyond our expectations... I was particularly impressed with the quality of their deliverables"

**ARTE N ARTE**
